The coding brand

codestrato

CodeStrato is the parent coding brand. GymStrato sits beneath it as a product.
The lowercase wordmark shares the GymStrato visual identity.
A small </> detail inside the rocket adds the coding reference.

Purple #77679A

Near black #17151C

White #FFFFFF

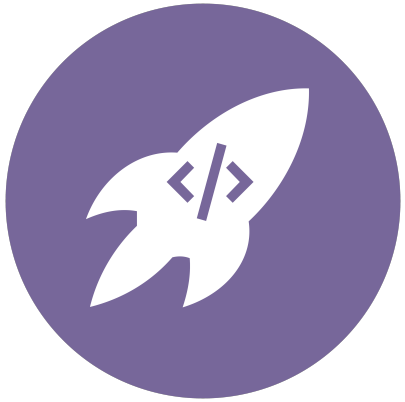

Logo versions

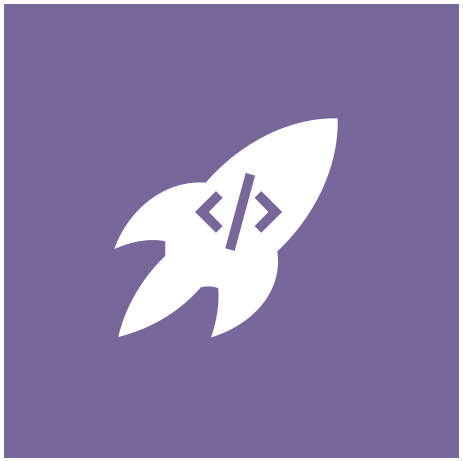

Transparent dark text: light backgrounds. Transparent white text: dark backgrounds.

Use the supplied solid black and solid white artwork for single colour work.

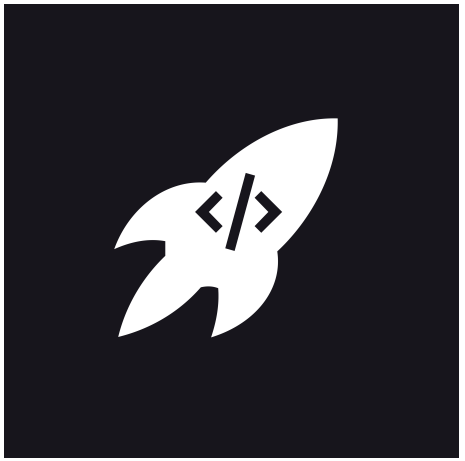

Icons and small sizes

Round mark

Purple app tile

Dark app tile

Use the detailed rocket mark at 96 px or larger.

The favicon files omit the code detail so the rocket stays clear at tiny sizes.

Use the full wordmark at 400 px or larger when the code detail must be visible.

Keep clear space of half the circle diameter around the visible logo.

Files and usage

PNG: ready for web, social graphics and presentations.

SVG: scalable paths for websites and design software.

PDF: vector artwork for print suppliers, supplied in RGB.

ICO and small PNGs: browser and app icon assets.

Supporting type: Inter Tight for headlines, Inter for body and UI.

The wordmark is outlined artwork. Do not retype it or substitute a font.

Keep the proportions and colours. Avoid effects and busy backgrounds.

Write CodeStrato in prose; use the supplied lowercase logo visually.

Production note

Rebuilt 8 October 2026 with fitted lettering curves and clean rocket and code geometry.

They contain real paths, with no embedded bitmap or required logo font.

8000 px logo PNGs. 4096 px icons and tiles. Smaller web exports are included.
